

Medical Sales

Job Description

Codex Genetics enables precision medicine through AI-powered analytics on both genetic and clinical data. We aim to provide holistic, clinically actionable disease management solutions for cancers and rare diseases patients. CoGenesis® genetic testing technology accelerates diagnostic processes and helps disease treatment and disease management.

We are looking for an exceptional Medical Sales to add onto our sales and marketing team.

Job Description:

- Sale and Promote genetic testing products and monitor end-to-end production cycle from order creation to products delivery processes
- Provide product details to clients to maximize product or brand penetration through development and execution of sales plan & strategies
- Proactively explore new business opportunities, approach key account customers, dealers, hospitals and other business partners and maintain good relationship with designated customers
- Work closely with marketing team to improve client satisfaction.
